

Discover the Serene Élite, the therapeutic mattress designed to treat stage 1 to 4 pressure wounds for high-risk patients. It combines comfort, safety and ease of use.

Main Features

- Pressure adjustment according to patient weight
- Available modes: alternating, static, maximum inflation, seat inflation
- Cell-on-cell design with heel relief for added safety
- Visual and audible alarms in case of low pressure or failure
- CPR function: rapid deflation in emergency situations
- Remains inflated up to 8 hours without power (transport mode)
- Technical cover: waterproof, breathable, antibacterial, fire-retardant
- Maximum capacity:
 - 36 x 80 x 8: 440 lbs (200 kg)
 - 42 x 80 x 8: 705 lbs (320 kg)
 - 48 x 80 x 8: 950 lbs (430 kg)

Description
