

The 4002 therapeutic mattress combines thermoregulating viscoelastic foam with a high-density foam base to provide optimal pressure reduction and prevent skin lesions.

Top foam in inches and lbs		
Thickness	Density	Compression
2"	5	10

Base foam		
Thickness	Density	Compression
4"	2,5	28

3" width	
Edge height (in)	Compression rating (lbs)
4"	65

Main Features

- Premium preventive mattress
- High-density viscose foam
- Firm edges, viscose-covered, and high-density reinforced to facilitate transfers
 - Dimensions: 3" x 4" (viscose-covered) and 3" x 6" (uncovered)
- Possible heel reduction (convoluted)
- Dimensions: 35" x 78" x 6"
- Also available in the following dimensions:
 - Width: 36"-39"-42"-48"-54"-60"-76"
 - Length: 78"-80"-84"
 - Height: 6"-8"
- Polyurethane cover
- Protected seams
- Maximum weight 350 lbs
- Stretcher format also available

Description

COVER

- Increases patient comfort
- Stretchable
- Bacteriostatic, fungistatic, antimicrobial
- Resists mould and rust development
- Prevents foul odours
- Prevents tissue degradation
- Protected seams
- Standard bedding
- Easy and efficient maintenance for care staff

MATTRESS

- Optimal comfort
- Effective support from head to toe
- Ergonomically adapts to different bed positions
