

The Leika dormitory mattress is specifically designed for institutional environments, offering robustness and durability through its high-density foam and cover resistant to liquids and bacteria.

Main Features

- 1.8 density foam
- 33 ILD
- Option to add reinforced transfer edge
- Dimensions: 35" x 78" x 6" and 36" x 80" x 6"
- Also available in the following dimensions: 39"-42"-48"-54"-60" in width
- Maximum weight: 400 lbs
- Protected seams

Description

MATTRESS

- 7.5" (1/2" tolerance)

COVER

- Borders:
 - 210 denier Nylon Oxford | Urethane with fire barrier
 - Kevlar thread
- Ticking :
 - 210 denier Nylon Oxford | Urthane with fire barrier
 - Kevlar thread
- XP PLUS 210 fabric: Composed of a 100% certified nylon substrate, XP Plus 210 is a fire-retardant, bacteria and fungus-resistant mattress cover fabric, while maximizing comfort. The polyurethane coating of at least 1 oz. offers maximum liquid resistance, preventing contamination of the mattress interior by liquids.

XP Plus is also an inherent laminated fire barrier without chemicals, compliant with 16 CFR 1633 and Cal T.B.129 standards, which prevents bad odours and tissue degradation.
