

The Protec mattress is designed specifically for demanding institutional settings, such as prisons and shelters, offering sturdiness and durability thanks to its high-density foam and its liquid- and bacteria-resistant cover.

Key Features

- Foam: Density 1.8
- 30–35 ILD
- Option to add a reinforced transfer edge
- Non-slip
- Dimensions: 35" x 80" x 6"
- Maximum weight: 400 lbs
- Reinforced seams
- No border

Description

COVER

- NMT Nylon
- Sealed
- Ticking
 - 210-denier Nylon Oxford | Urethane with fire-retardant barrier
 - A thick, durable fabric that wraps around the mattress. Its purpose is to contain the filling and protect the mattress.
- XP PLUS 210 Fabric: Made from a 100% certified nylon substrate, this flame-retardant mattress cover fabric is resistant to bacteria and fungi, while maximizing comfort.
- An inherent, chemical-free laminated fire barrier that complies with current standards and prevents odors and fabric degradation.
- The polyurethane coating, at least 1 oz, provides maximum resistance to liquids, preventing contamination of the mattress interior.
