

The Protec+ mattress is designed specifically for demanding institutional settings, such as prisons and shelters. Its ultra-durable cover, combined with high-density foam, makes it exceptionally sturdy and durable.

Key Features

- Foam: Density 1.8
- 30–35 ILD
- Option to add a reinforced transfer edge
- Non-slip
- Dimensions: 35" x 80" x 6"
- Maximum weight: 400 lbs
- Reinforced seams
- No border

Description

COVER

- 17 oz
- Highly durable
- Sealed
- Ticking
 - Urethane with fire-retardant barrier
 - A thick, durable fabric that envelops and protects the mattress while containing its filling.
- An inherent, chemical-free laminated fire-retardant barrier that complies with current standards and prevents odors and fabric degradation.
- The polyurethane coating, at least 1 oz thick, provides maximum resistance to liquids, preventing contamination of the mattress's interior.
