

by Leika Medical Equipment

Leia Harmony Flex

DESIGNED FOR COMFORT. BUILT FOR HOSPITALITY.

Inspired by Leika's therapeutic mattress technology, the Leia Harmony Flex combines advanced comfort technologies with the durability required for high-turnover hospitality environments.

VISCOELASTIC COMFORT

3 layers of adaptive viscoelastic foam contour to the body, providing balanced pressure relief and ergonomic support across a wide range of sleepers.

TEMPERATURE REGULATION VISCOSE FOAM

Cooling gel technology helps dissipate heat and maintain a comfortable sleep temperature throughout the night.

FRESHGUARD™ PROTECTIVE COVER

A removable, washable and waterproof cover simplifies cleaning and helps streamline room turnover. It provides antimicrobial, bacteriostatic, fungistatic and hypoallergenic protection while helping prevent odours. Its stretchable construction ensures a secure, wrinkle-free fit while reducing heat reflection toward the sleeper.

BUILT FOR HIGH-TURNOVER ENVIRONMENTS

Durable materials and reinforced seams withstand frequent housekeeping and repeated guest use, helping extend mattress life in high-turnover environments.
