

Cost effective care without compromise. The WeCare™ bed continues our legacy of quality and reliability, now in a convenient package for easy delivery to both institutions and community. Designed and field tested for one-person delivery and setup, WeCare™ brings fall prevention, resident comfort and caregiver safety to any setting.

Enhanced Capabilities and New Options

- **Unparalleled stability:** Enhance confidence entering / exiting the bed with full range stability and foot placement.
- **A safer system:** Protect against fall injury and reduce caregiver strain with the 8.0" ultra-low height and ergonomic 28" high height.* Add peace of mind knowing WeCare™ is guaranteed to meet bed entrapment guidelines.
- **Enhanced comfort and care:** Augment care, improve sleep, and reduce movement in bed with a fully adjustable sleep deck, AutoContour positioning, and optional staff control with Trendelenburg/Reverse Trendelenburg and function lock.
- **A better fit:** Improve comfort, simplify repositioning and reduce falls risk with flexible sizing. WeCare offers optional 4" length extension and width extensions from 35" to 39" (Twin XL) and 42".
- **Easier installation:** Protect installers from excessive strain and simplify delivery with WeCare's unique transport dolly and stair climber.
- **Flexible delivery:** Receive WeCare the way you want it. Packaged for easy delivery to suit your needs, the bed system can ship palletted or by parcel carrier.

More Height Adjustment*

Ergonomic Hand Pendant

Optional Staff Control with lockout and Trendelenburg/Reverse Trendelenburg

Optional width and length extensions

Standard Offering

- **Reduced risk of injury:** With greater travel range.
- **Exceptional clearance:** Open architecture legs.
- **Comfort and shear reduction:** Three-section mattress support platform.
- **Better sleep deck:** Therapeutic grid surface.
- **Industry leading stability:** Durable tubular steel design.
- **Intuitive ergonomic hand pendant:** 8-function control with integrated hook.
- **Safer repositioning and egress:** Entrapment compliant assist device can be mounted at head and foot plus optional staff control offers gravity assisted repositioning.
- **Effortless operation:** Four quality DC motors.
- **Managed controls:** Pendant function lock-out available with optional staff control.

Delivering care together...

We Care about delivering fast and effective care as much as you do! We've made ordering and setup of your bed quick and easy. Receive WeCare™ the way you want it. Packaged for easy delivery to suit your needs, with flexible delivery options. WeCare™ elevates patient comfort and care with simplified care solutions.
