- Better sleep quality, with innovation focused on comfort.

Beds and accessories

A choice of beds to suit every need.
Several models are available, tailored to each resident's preferences and budget.

Made-to-measure comfort

Multiple widths (36", 39" and 42") and an optional foot extension to fit every room layout.

A design that complements every room

Modular headboards and footboards for a customizable look, without compromising clinical performance.

Safe, respectful support

An assist bar instead of a bed rail, offering secure support that respects residents' independence.

Complete bedding set

A supportive pillow and silky, durable, breathable sheets for year-round comfort.
